Object of the game: Each player tries to get all the pieces that are in his region to this of his opponent.

PROGRESS OF THE GAMES

Players have 5 pawns in their area.

The game starts when both players are ready.

The aim is to throw the pawns under the bridge to the opposite side, giving impetus from the elastic rope.

When a pawn gets out of the board or passes over the bridge, the game is interrupted.

The players play simultaneously and the first to get all pawns to the opponent side, wins the game.
